About

Dexter High School: A Beacon of Excellence in Michigan's Heartland

Nestled in the charming city of Dexter, Michigan, Dexter High School (DHS) stands as a testament to academic excellence and holistic development. Established in 2002, DHS has rapidly ascended to become one of the state's premier public high schools, offering a comprehensive education that prepares students for the challenges of the future.

Academic Excellence and Diverse Curriculum

At the core of DHS's mission is a commitment to champion learning by developing, educating, and inspiring its students. The school offers a rigorous curriculum that includes the International Baccalaureate (IB) Diploma Programme, numerous Advanced Placement (AP) courses, and technical education programs available through a county-wide consortium. This diverse array of academic offerings ensures that students are well-prepared for higher education and beyond.

State-of-the-Art Facilities

DHS boasts modern facilities designed to enhance the learning experience. The campus includes specialized classrooms, science laboratories, a well-equipped media center, and dedicated spaces for arts and athletics. These facilities provide students with the resources they need to excel in various disciplines.

Thriving Athletics and Arts Programs

The school's athletic department, home to the Dexter Dreadnaughts, offers a wide range of sports, including football, basketball, soccer, and swimming. DHS has earned multiple state championships across various sports, reflecting its strong athletic tradition. In the arts, the music programs consistently garner top honors, with the band, orchestra, and choir providing students opportunities to showcase their talents.

Innovative Special Programs

DHS is dedicated to providing unique learning opportunities. The school offers the International Baccalaureate (IB) Diploma Programme, starting with the class of 2014, and numerous Advanced Placement courses. Additionally, technical education programs are available through a county-wide consortium, allowing students to explore various career paths.
